# YOUR UMBRELLA

STYLEBOOK 2021

A person is seen from behind, holding a large umbrella made of tropical leaves. The umbrella is the central focus, with its ribs visible. The person is wearing denim shorts with a frayed hem. The background is a dense jungle with various green leaves and plants. The overall color palette is dominated by greens and blues.

FARE

# YOUR UMBRELLA YOUR STORY

## LET FARE® UMBRELLAS DO THE TALKING

Every company and every brand has a lot to say. About its own values, and the topics and ideas behind them. With an individual FARE® umbrella, you can tell precisely these stories: To suit every customer, employee and business partner.

Which messages can our umbrellas convey and who are they made for? Let the following pages inspire you! Our different models open up the most exciting worlds and fascinating possibilities to you.

MAKE AN

# IMPACT

» The promotional effect could hardly be better: With a FARE® umbrella, you can use generous areas for logos and creative design. You can create an individual eye-catcher that is constantly in the public eye and make people remember you – for years to come. This is the decisive difference compared to other promotional items with a smaller advertising space.

## YOUR ADVANTAGES AT A GLANCE

**Creative:** Around 130 models to choose from, with innovative features and creative options for advertising.

**Versatile:** Whether as a present, as a merchandising article, or for sales promotion.

**Obvious high-quality:** Thanks to decades of experience and the use of high-quality materials, FARE® quality umbrellas are robust and safe in daily use, extremely durable and more than worth their price.

**High standards in production:** Currently all production sites for manufacturing umbrellas have been audited in line with amfori BSCI requirements and have a valid audit certificate.

**amfori** @

Trade with purpose

Member of amfori, the leading global business association for open and sustainable trade. We participate in amfori BSCI. [www.amfori.org](http://www.amfori.org)

**waterSAVE**

Our new STANDARD 100 by OEKO-TEX® certified waterSAVE® cover material saves energy, and protects water and the environment.

Measure and weight indications are approximate figures only. We reserve the right to change colours, technical details or designs. Embellishments as shown in the promotional labelling examples are subject to a surcharge. Our General Terms and Conditions of Business apply.

» Sunflowers bring a smile to our faces and are a mood booster even on dark days. No wonder: No other plant exudes so much light and energy. The sunflower also gives us its power in the form of oil – for our food and medicine, for agriculture and industry. A real allrounder that enriches our lives in every way: All the more as a colourful umbrella design.

# UNIQUE HIGHLIGHTS

TIME TO WONDER – WITH THE FARE®-ALLOVER XPRESS  
FROM JUST 100 UNITS  
READY FOR SHIPMENT WITHIN 15-20 DAYS AFTER APPROVAL\*

» We can experience one of nature's miracles when the northern lights bathe the night sky in colour. Directly above our heads, something very big is produced by particles, acceleration and energy; fascinating in its beauty, unique in its power. You need space to capture such Big Pictures. FARE® umbrellas offer it – with all-round printable covers in order quantities starting at just 100 units, and with the shortest production times. This creates unexpected possibilities – and a completely new view of the umbrellas as an advertising medium.

# 5 BASIS MODELS TO CHOOSE FROM

## STEP 1

Select a basis model.

## STEP 2

Send us your desired motif as a printable file (min. 90 × 90 cm at 300 dpi).

## STEP 3

You receive an e-mail for approval with an image showing how your motif will be implemented.

## STEP 4

Look forward to your customised umbrella!

» When on the search for advanced new technologies, we discovered a **revolutionary dyeing process** which dramatically reduces both consumption of energy and valuable raw materials, as well as the environmental impact with hazardous materials. Just the type of progress we want for FARE production.

This idea gave rise to our new **STANDARD 100 by OEKO-TEX®** certified waterSAVE® cover material, which is now used in the popular Style series, the Colorline umbrellas and the FARE®-Steel.

» REDUCING CO<sub>2</sub> EMISSIONS BY MORE THAN

**60%**

» TOTAL WATER SAVED PER UMBRELLA IS ALMOST

**6L\***

\* This is calculated based on water savings of 2 million litres for processing around 300,000 m<sup>2</sup> of fabric, from which around 350,000 umbrellas can be made.

» The time comes at some point: The moment when a man realises exactly who he is. Now it is clear how things should be. Class counts, in life and in looks, and details come into focus. And real values decide – just like the high-quality workmanship of a FARE® umbrella. Made to be discovered and appreciated.

# MODERN MEETS CLASSIC

TRENDS COME AND GO, BUT GOOD STYLE REMAINS

# LOOK AT THIS!

UMBRELLAS FOR PEOPLE WITH A VISION

» Risk a glance more often – that's the order of the day now. Flirt a little bit with the world and draw all eyes towards you. Transparency is on trend – all-over or as sophisticated detailing. The street becomes a catwalk and the FARE® umbrella a playful accessory for bloggers, fashionistas and everyone who likes to put themselves in the limelight. And a view of the world comes with it for free.

For the best view,  
whatever the weather

other shapes as part of customisation. Create a  
perspective!

# WE LOVE GREEN

**GETTING THE BEST  
IDEAS BY RETHINKING**

» Our world has changed. Children nowadays take to the streets to demand their future. More responsibility, more sustainability – FARE is also facing this challenge. We question, try out, discover new things and develop solutions: With renewable raw materials like wood and bamboo as well as with the use of recycled plastics. Always with the aim of reducing CO<sub>2</sub> and saving resources.

- Can be dried standing on the tips, to save space

PRETTY

# CLEVER

TURN EVERYTHING ON ITS HEAD

» Problems exist only to find solutions to them, no matter how tricky they are – or how commonplace. Getting into the car in the rain, staying dry and avoiding wet umbrellas on the seat are just some of those things. Until FARE came and implemented the reverse opening and closing mechanism in first-class quality. Somehow logical. You just have to come up with it.
